Subject: can any of you come up to Dimock all next week.....

we need help Monday the 6th (early - as in you have to leave Sunday night) and we get done here late Friday - you would be home about 8:30 pm.....

Dennis Matlock may be able to help but I will not know until later today so I need a back up plan.

You would be accompanying the field sampling teams (home wells) comprised of START, DEP and the Cabot contractor. We are short handed.

Please let me know asap yes or no.....we may have to reach back to the RSC and they are not as easy to schedule as you all are....
